EZ WINDER & COUNTER: carpet base rolled uniformly, within seconds

Allows you to **Roll-up** and **Measure** Carpet Cove Base quickly and evenly, eliminates the painstaking job of rolling up lengthy pieces of Carpet Cove Base by hand. The unit can be secured to any worktable in just a matter of minutes! Our patented **Quick Turn Roll-Up Handle** eliminates any heavy and painful cranking. The **Feet and Inch Counter** records the amount of base being rolled up as it passes under the measuring wheel.

EZ WINDER & COUNTER

The **EZ Winder** makes rolling up and measuring carpet base easy, producing a straight, tight coil for you to send to the job site.

EZ TAPE

Looking for a clean solution to installing carpet base? The **EZ Tape** dispenser applies a strip of double-sided tape to the backing of the carpet, making for quick & easy on site installation.

EZ BINDER

The **EZ Binder** is an easy to operate low maintenance binding machine, ideal for high volume operations. Used to quickly and efficiently bind carpet base, there is no job too large for this durable industrial strength model.

No Seaming Iron required. Cuts installation times in half. **Eliminates** messy adhesives & glue residue. **Immediate usage** - no drying or set-up time. Easy to apply and install!

EZ FEED Conveyor System, features and details (not shown)

Improve productivity and increase capacity by using the **EZ Feed** conveyor system in combination with either our **MK-7** or **MK-10** cutting machines. The **EZ Feed** is a must for high volume retailers and distributors requiring smooth, continuous material processing.

accessorize the MK-7 or MK-10 with the EZ Feed

MTS-1000 Software Interface

This easy to use Interface system allows you to connect our line of cutting machines directly to your POS flooring software. Essentially, your machine is connected to a networked PC providing the operator with real time data to manage the cutting schedule thereby improving efficiency and reducing costly errors. *(Available on most models)*

CROSS SPLITTER

The **Cross Splitter** attaches to any of our cutting machines, allowing you to split rolls of material into any width, great for long hallways and runners!

Attach the cross splitter to these machines in just minutes:
